# ABOUT *ResIndo*

PT RESINDO MEDIKA

Is the Sole Distributor in Indonesia for ResMed and SOMNOmedics with location throughout the world. We provide continual patient support through all stages of treatment from testing to therapy, with regular follow up to ensure that the treatment is tailored to the needs at all times. We employ professional CPAP therapists with extensive experience in home therapy for sleep disorder and COPD patients. Our sleep technicians are providing full solutions to the sleep disorder problems of the patients.

 ResIndo Medika are committed to make OSA and COPD treatment a positive experience.

 PT ResIndo Medika is supported by well-experienced staffs :

# What We Do

*ResIndo*

Improve quality of life for people with SDB and patients with respiratory failure

01

## **Education, awareness, screening**

Help the medical community and public to understand SDB and provide tools to identify people at risk

02

## **Innovative products and technologies**

Raise the benchmark for effective diagnosis, therapy and patient comfort and compliance

03

## **Respiratory care solutions**

Provide temporary or long-term ventilator assistance

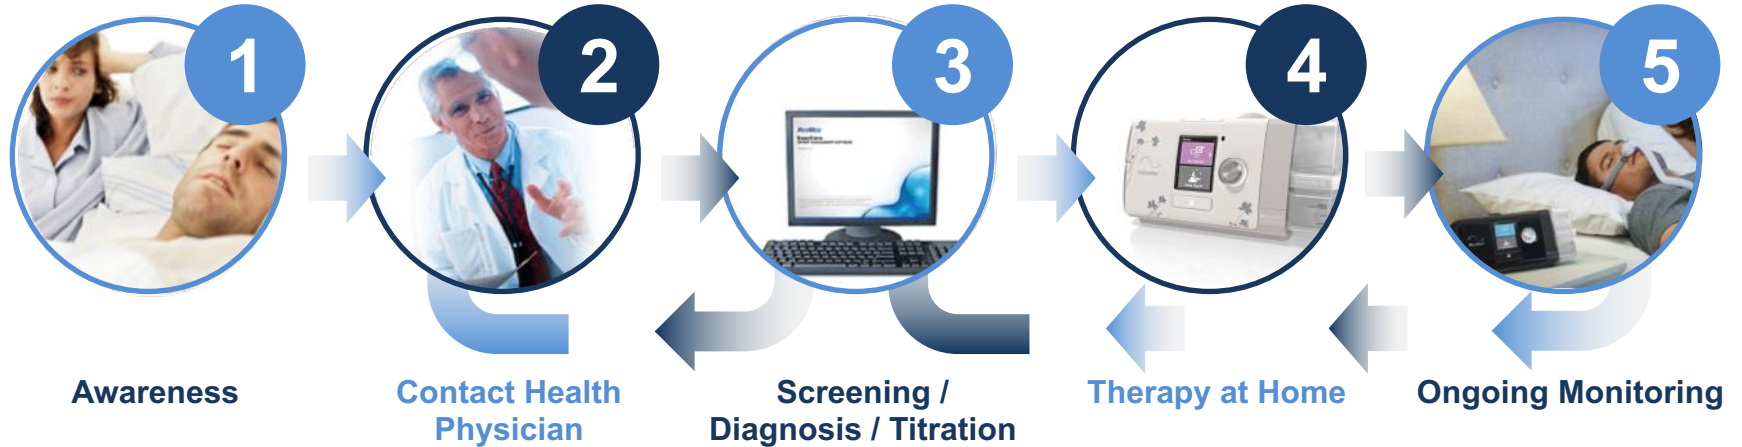

04

## **Monitoring systems**

Ensure therapy meets clinical requirements

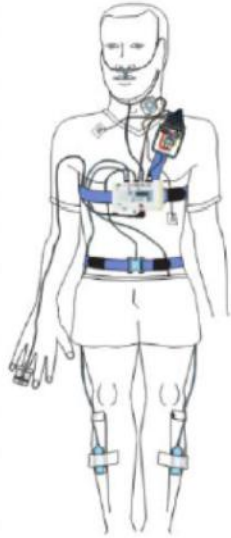

# Patient Journey: From Diagnosis to Treatment

*ResIndo*

**ResIndo**  
**SONMO**  
**medics**  
**Products**

SOMNOscreen plus

SOMNOtouch RESP

SOMNOtouch NIBP

# Treatment of OSA

Primary treatment for SDB is continuous positive airway pressure (CPAP).

CPAP is considered the “gold standard” of non-invasive therapy.

No drugs or pharmaceuticals.

A medical device gently delivering pressurized air via a mask keeps the upper airway open.

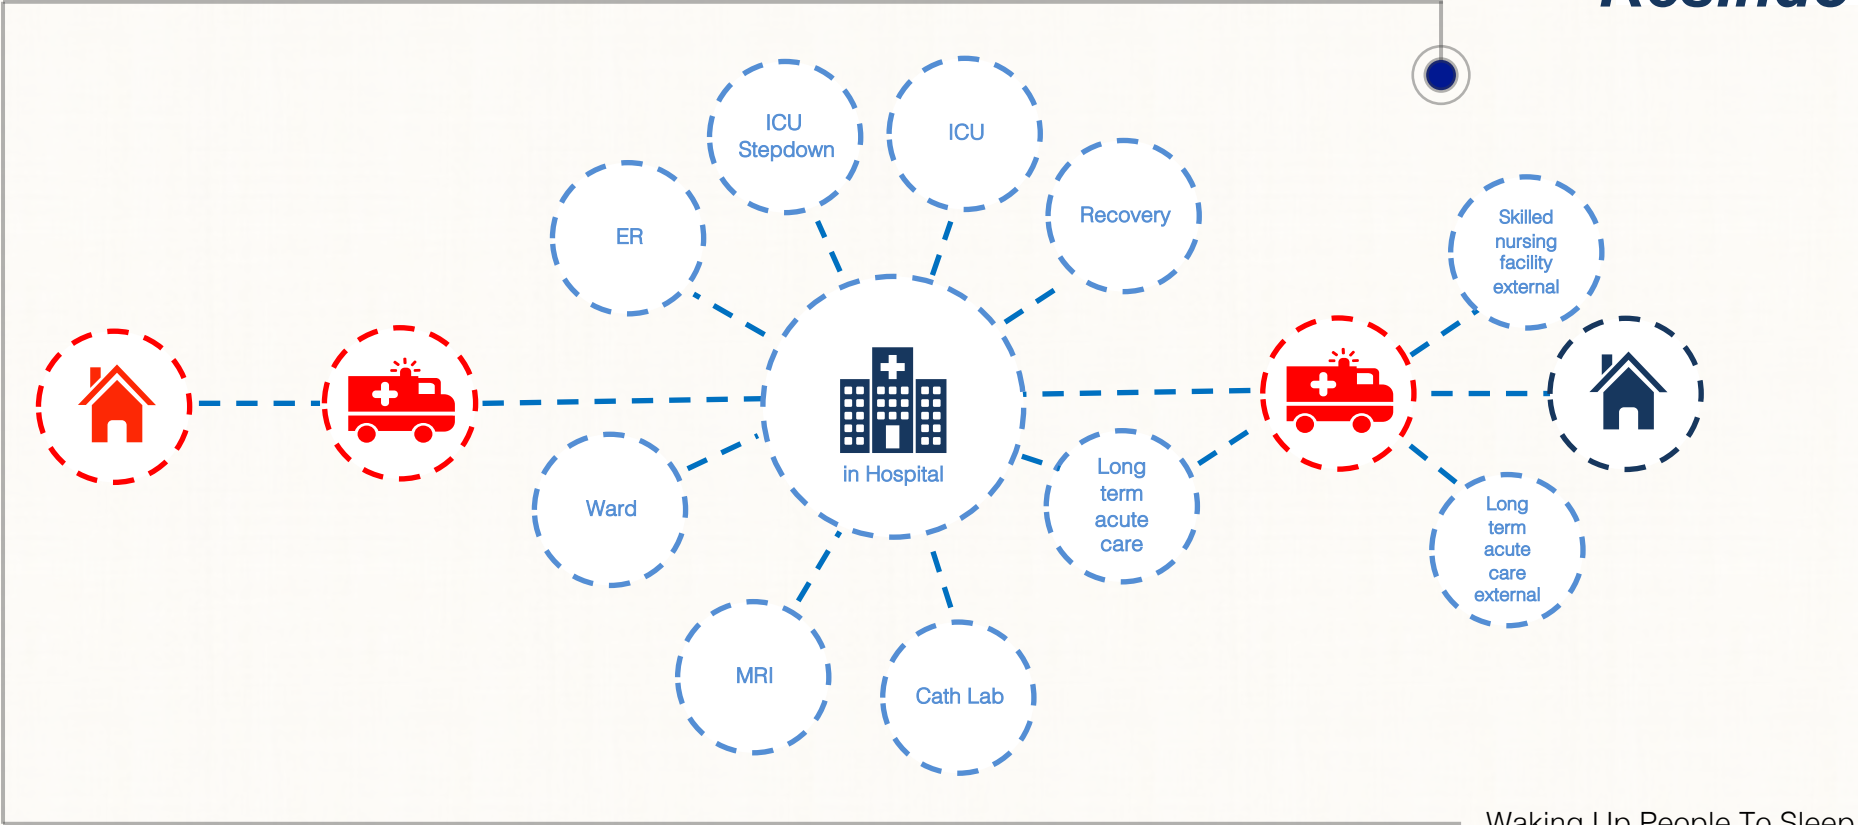

Air pressure varies from patient to patient.
